Extaterrestrial Retrievals

Evidence of Aliens in Our Midst

by Dr. J.J. Hurtak

Astrobiologists are making great strides in searching for life beyond Earth. What about the reality of Extraterrestrial Biological Entities (EBEs) that have been recovered on Earth?

This is a brief review of various reports given to Dr. J.J. Hurtak by different sources discussing experiences of Close Encounter of the Third Kind that took

place around the time of Roswell and into the 1970s. Case studies presented here involve names changed for the protection of the witnesses.
